## Response To Intervention (RTI) Parent Notification Letter

Date: \_\_\_\_\_

Dear Parent/Guardian of: \_\_\_\_\_

Life School uses an instructional model called Response To Intervention (RTI). RTI is a process designed to address the needs of all students and is intended as early intervention to promote long-term academic success. Our RTI Team meets on a regular basis to offer assistance to the students, teachers and parents regarding student progress.

A referral has been made to the Campus RTI Team regarding your child's progress. The team will be reviewing all available information in order to develop an intervention plan and make other recommendations, as appropriate, to better assist your child in making successful progress in school.

This letter is to provide you with written notice that the RTI Team will be gathering data from a wide variety of sources including the student's cumulative file, school health records, teacher reports, other school records, and classroom work. If you have any questions about this process, please feel free to contact me.

Sincerely,

Classroom Teacher
