

LIFE SCHOOL

NEW HIRE WELCOME BOOK

2026-2027

A Mission from the Beginning

Life School began in 1998 to serve students and families in southern Dallas. Through the vision of Dr. Tom Wilson, Life School opened its doors with 15 faculty and staff serving 266 students at the Oak Cliff campus. In the last twenty years, our district has grown to 9 campuses serving nearly 6,000 students.

Though Life School has grown, our mission and vision have remained constant. The mission of Life School is to develop leaders with life skills through **strong academics, character training, and partnerships with parents and the community**. In recent years, we have enhanced our character training through our internally created LifeLeader character training program to fulfill our vision to ensure every student is Ready to Learn, Ready to Lead, and Ready for Life. Life School's

culture is centered around our values of **building trust, valuing people, and pursuing continuous improvement**. As a complement to our culture, we partner with Gallup to present a strengths-based approach to the growth and development of our talent.

“I believe in charter schools because they offer the best hope to change the learning environment, enlist the best teachers, partner with parents, instill values, and impart character to young people.”

Dr. Tom Wilson, Founder

To facilitate this growth, all employees take the CliftonStrengths assessment to learn their Top 5 strengths and how to use them to make a positive impact in their own life and the lives of others.

MISSION

The Mission of Life School is to develop leaders with life skills through strong academics, character training, and partnerships with parents and the community.

LIFELEADER

GUIDE

READY TO **LEARN** READY TO **LEAD** READY FOR **LIFE**

“Knowledge and understanding can be instilled in these young people and it will carry them to the top of the mountain, but they will fall off a cliff if they do not have character that is able to keep them there.”

Dr. Tom Wilson, Founder of Life School

Our Mission

The mission of Life School is to develop leaders with life skills through strong academics, character training, and partnerships with parents and the community.

Long-term Impact

Our efforts are focused on improving student outcomes and closing opportunity gaps to help our students stay at the “top of the mountain.”

The Heart of LifeLeader

LifeLeader articulates the character attributes that we want to develop in our students, staff, parents, and ourselves. LifeLeader is a common language for our character instruction. A common language makes it easier for us to understand each other and helps us to focus our efforts.

LifeLeader can be interwoven into instructional efforts. Character education is not something that we pause instruction to do. It is something we model and do while we are teaching, serving, and working together.

Academics

At Life School, we are dedicated to ensuring that every student has equitable opportunities for success, regardless of their background or life experiences outside the classroom. To achieve this, we equip our teachers with a high-quality curriculum that serves as a strong foundation for delivering effective instruction tailored to the diverse needs of their students. We further support our educators through ongoing coaching conversations with campus administrators, instructional coaches, and coordinators.

Additionally, teachers have the opportunity to grow their own leadership capacity by participating in the Aspiring Administrators Academy. This program broadens their perspective beyond their current role and prepares them for future positions, such as assistant principal, within Life School. To ensure participants can fully engage in this professional development, Life School is committed to providing classroom coverage for a few hours each month, allowing teachers to focus on their growth without distractions.

Instructional Coaching

We are committed to teacher preparation and development by providing every campus with an instructional coach that provides ongoing personalized learning and professional development.
