

Collaborative “Working Together”

*WORKING WITH FRIENDS ON A PROJECT TO FIND
AND SOLVE PROBLEMS TOGETHER*

Questions I ask myself:

- How can I help my friends' ideas shine and be successful?
- How can I make sure my friends get a chance to share their thoughts and ideas?
- How can I be a good teammate?

Collaborative

What I Do and Say:

- Make sure everyone knows their job and what they're responsible for
- Use everyone's differences to make things better
- “How can we help each other?”

What I Don't Do and Say:

- Quickly say something is not good without really thinking about it
- Only think about what I want and not what others want
- “That's a terrible idea.”
