

Critical Thinking

“Smart Thinking”

*MAKING SMART DECISIONS BY LOOKING
AT ALL OF THE FACTS AND THINKING CAREFULLY*

Questions I ask myself:

- What are my choices?
- What information do I have that helps me know I’m making the right choice?
- How are my feelings affecting my choice?
- What will happen if I make this choice?

Critical Thinking

What I Do and Say:

- Keep learning and stay updated on new information
- Be open to changing my mind if I learn something new that makes sense
- “This is the best choice because...”

What I Don’t Do and Say:

- Do something before checking if it’s the right thing to do
- Use information in a way that doesn’t match its real meaning or purpose
- “I just felt like it.”
